Flexible armparts

The armparts are foldable and fitted with notch function as standard.

Except the armchairs.

**Flexible installed headrest:**

Every item with the appendix "F" in it's description is equipped with an additional headrest function.

**Extendible lying surface:**

Some items can be fitted with the A01 manually seat extension in return for an upcharge. See type guide.

**Ottoman with storage space**

An ottoman has a fold-out function with integrated storage space. Functional ottomen do not have a spring core in the seat. All ottomen are available with castors for upcharge. See type guide for item no.

**Castors for ottomen**

The ottomen can be equipped with castors for upcharge. Two of the castors can be fixed. Thus a comfortable, big couch surface arises.

**Order information****Back sides of sofas:**

All pieces are genuinely upholstered at the back.

Flexible armparts:

A maximum load-bearing capacity up to 25 kg is guaranteed for the functional armrests. They are not made for sitting on.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for end elements in the type guide.

Connecting sides:

For an upcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

In some leather colours, this model can be supplied with contrasting-coloured thread, at no upcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Combined covers:

This model can also be supplied in a combination of different cover qualities. This is shown as follows in the order:

1st cover information = base; 2nd cover information = seat/back/armpart pillow.

Price: combination within the same fabric/leather quality:

Price = plain price +2%.

All the other combinations: price = plain price cover 1 + plain price cover 2: total calculated -50%.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend the plexiglass cover L 011 or a roll mat fom model range 10006.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height and refer to the leg height ca. 10 cm. The depth measures include the overlapping of the headrest if the function is flapped backwards.

Seat depth: ca. **58 cm**

Back height: ca. **82 cm**

Back height if headrest adjustment is up: ca. **93 cm**

Total depth if seat is extended: ca. **124 cm**

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the back. This can lead to depression of the individual chambers, which is a typical product characteristic.

Order checklist

- Structure and cover (order information)
- Leg design/-height
- Castors for ottomen (upcharge)
- Leg colour with wood/metal legs
- Seat extension (upcharge)
- Positioning diagram
- Contrasting thread
- Pillows
- Ottomen/panel for ottomen (order information)

Upholstered furniture frame structure

1. **Frame** – Beech wood structure
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** – spring core with diolen cover incorporated into ergoPUR-foam
4. **Back suspension** with upholstery strap
5. **Back upholstery structure** with a high quality mix of polyester fibres and foam rods, filled in cushion boxes, with mechanic in the back

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has over 65 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

In-house manufacture conforming to the specs of the quality management system in line with ISO 9001, to safeguard int. processes. Last update 06/2018.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Climate pact with the DGM from sense of responsibility compared with the environment and climate goals of the Federal Government as well as the UN. Base is the CO2 balance of an enterprise.

Leg and seat heights:

Due to different leg heights, the model is available in different seat and total heights. The leg design has to be indicated.

Leg colours:

The legs including wood are available in a choice of different stain shades. We are happy to advise you.

Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

Metal colours:

The metal leg F C3/F C4 is available in different metal colours. Please indicate the colour when ordering.

Powder-coated:

The colours M56 bronze, M95 anthracite and M99 black are powder-coated.

Castors for ottomen:

Every ottoman can be equipped with castors for an upcharge. The item number is marked with an "R" (e.g. G ...R). Two of the castors can be

fixed. Please note that the castors are available in two different heights.

Legs and floor protection:

In the case of very slender furniture legs in deliberately filigree shapes and with small surfaces it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you hardly slip the furniture it can be helpful have a carpeted floor.
