

[alma]

Timeless design in noble processing.

The modern bench looks very good in every dining room.

*The noble seam processing as well as the off-the-floor design lead to the successful **look**. High-quality materials provide a great seat comfort. An extensive plan of types leaves **room for creations**. The elegant metal runner is available in different colours and also a contrast stitch is available.*

Different and flexible armparts

The model is available with different armparts. See order information. SB has an armpart adjustment with notch function as standard.

Contrasting thread

In some leather colours this model can be supplied with a contrasting-coloured thread, at no surcharge.

Metal colours for legs

Some legs are available in the metal colours high-gloss chrome, silver, bronze, anthracite or black. Please indicate when ordering.

Noble wood runner

The wood runner is available in original oak or original walnut-tree.

Order information

Armparts:

SA - straight, cubic, width ca. **14 cm**

SB - wide, angled, width ca. **24 cm** - overmeasure + ca. **10 cm**, including armpart adjustment (width, if armpart is up ca. **14 cm**; width, if armpart is down ca. **24 cm**)

At every "B-item", at E140R/L, E160R/L, at C140R/L, C160R/L, C190R/L, C220R/L and C250R/L an armpart can be fixed.

Flexible armparts:

A maximum load-bearing capacity up to 25 kg is guaranteed for the functional armrests. They are not made for sitting on.

Positioning diagram:

Due to the many possibilities of variation, please send with a positioning diagram. We've marked the sides for conclusion for corner elements at the benches in red for you at the element map. Sides at which an armpart can be fixed are marked with an armpart scribble at the element map. At open conclusions, the seat extends a little at the side. In that case no armpart can be fixed.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The measures with the benches are given without armpart in each case. Please note the overmeasure in dimension per each armpart.

Seat depth: approx. **45 cm**

Armpart height armchair: approx. **63 cm**

Armpart height armchair with leg F60 or F84: ca. **65 cm**

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no surcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

Upholstered furniture frame structure

1. **Frame** – seat: metal construction; back: beech wood structure
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** of ergo-PUR-foam with diolen cover
4. **Back suspension** with upholstery strap
5. **Back upholstery structure** of ergoPUR-foam with diolen cover

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
