**Metal****coloured legs**

Some legs are available in the metal colours high-gloss chrome, silver, bronze, anthracite or black. Please indicate when ordering.

**Armchair**

The armchair is part of the model range and also can be used as an eye-catcher in your living space because of its beautiful appearance.

**Order information**

**Frame structure of the individual armchair and the chair:**  
The individual armchair and the chair have a different frame structure than the group. This also results in a different seat firmness. The armchair and the chair have no spring core in the seat. The seat upholstery structure is of ergo-PUR foam and a high quality mix of polyester fibres and foam rods, filled in boxes. The back upholstery structure is of ergo-PUR foam.

**Positioning diagram:**

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

**Seam appearance:**

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

**All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The measures for the individual armchair M refer to the leg F 49. The free-swinging frame of the MZ armchair is protruding by about 4 to 5 cm.**

Seat depth: approx. **45 cm**

Seat depth armchair: approx. **43 cm**

Seat height armchair with leg F60 or F84: approx. **52 cm**

Seat height chairs: ca. **53 cm**, lowers a little when sitting on

Armpart height armchair: approx. **63 cm**

Armpart height armchair with leg F60 or F84: approx. **65 cm**

Seat depth chairs: ca. **42 cm**

**Measurements of the corner combinations:**

With this model the seat of the corner benches rises approx. 2 to 3 cm into the connecting side. Therefore other total measures occur than by pure addition of the article measurements. Please note.

**Especially loose-fitting upholstery:**

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

**Information on the upholstery structure:**

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

**Order checklist**

- Cover
- Leg design
- Metal colour for legs
- Positioning diagram

### Upholstered furniture frame structure

1. **Frame** – seat: metal construction; back: beech wood structure
  2. **Seat suspension** with permanently elastic wave springs
  3. **Seat upholstery structure** – spring core with diolen cover incorporated into **ergo**-PUR-foam, high quality mix of polyester fibres and foam rods
  4. **Back suspension** due to upholstery strap
  5. **Back upholstery structure** of **ergo**-PUR-foam with diolen cover and a high quality mix of polyester fibres and foam rods, filled in boxes
- Please note!** The individual armchair and the chair have a different frame structure and no spring core – see order information.

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

### Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

### Legs

- metal runner **diff. metal col.**  
F Q7
- free-swinging frame **diff. metal col.**  
F H9
- aluminium leg gloss  
F 49
- plastic double castor (2 cm taller)  
F 60
- castor for parquet (2 cm taller)  
F 84

**Metal colours:**  
Some of the metal legs are available in different metal colours. Please indicate the colour when ordering.

**Powder-coated:**  
The colours M21 silver, M56 bronze and M99 black are powder-coated.

**Legs for armchair:**  
The armchair M is available with the metal leg F49 and the castors F60 or F84, only. The castors F60 and F84 are 2 cm taller. For that reason the seat height changes to ca. 52 cm. The MZ chair ist available with the free-swinging frame FH9 in different metal colours (no surcharge), only.
