**Mega sofa and ottoman**

The type range of this model contains an unconventional sofa with an additional extended magnitude. For everybody who wants it large and comfortable, the matching ottoman is available. Together with the sofa it leads to a gigantic couch surface.

**Classy runner**

A beautiful metal runner in black powder-coated (item no. MK...) is available for surcharge.

**Metal colours for legs**

The metal leg FL 6 can be ordered in the finishes shiny chrome, bronze or black. Please specify the desired look with your order.

**Contrast thread**

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge.

**Absolutely eye-catching**

The nicely curved armparts of the model lead to an interesting look. The loose armpart pillows have to be ordered suitably for the right and left armpart.

**Order information****Loose cushions:**

There are loose seat and back cushions with this model (except one arm chaises).

**Back sides of sofas:**

All pieces are genuinely upholstered at the back.

**Positioning diagram:**

Please send us a positioning diagram, depending on the amount of different variations available. We have marked the connecting sides in red for end elements in the type guide.

**Connecting sides:**

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

**Seam appearance:**

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

**Contrasting thread:**

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge. You will find the specified colours on the cover sheet of the individual leather qualities in our fabric/leather trolley. Please always state the contrast thread number, otherwise it will be delivered tone in tone.

**All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.**

Seat depth: approx. **58 cm**

Seat depth without back cushion: approx. **74 cm**

Seat depth mega sofa: ca. **80 cm**

Seat depth extra large sofa without back cushion: cca. **96 cm**

Seat height with metal runner F 5B: approx. **43 cm**

Seat height with metal leg: F L6: ca. **43 cm**; F P5: ca. **45 cm**

**Loose seat and back cushions:**

Due to loose seat and back cushions measures may vary. Measures were taken with oriented seat and back cushions. The seat cushions of the one arm chaises are fastened with a zipper.

**Especially loose-fitting upholstery:**

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

**Information on the upholstery structure:**

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

**Base leg Z:**

If elements and sofas with or without an armpart are to be attached directly to elements or sofas with or without an armpart, a base leg Z is required. The base leg must be ordered separately. See price list.

**Order checklist**

- Structure and cover
- Metal runner (surcharge)
- Leg design/-height
- Metal colour for legs
- Ottomans
- Positioning diagram
- Contrasting thread
- Armpart pillow
- Base leg Z

## Upholstered furniture frame structure

1. **Frame** – Beech wood structure
2. **Seat suspension** with permanently elastic wave springs

5. **Back upholstery structure** with high quality latex sticks and silicone fibre mixture, loose back cushions

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

## Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Metal runner, surcharge black

F 5B

### Metal colours:

The leg is available in different metal colours. Please indicate when ordering.

The legs are consciously 2 cm taller in front than behind.

### Powder-coated:

The colours M56 bronze and M99 black are powder-coated.

### Leg and seat heights:

In combination with the metal legs, the model is available in different seat and overall heights due to the two leg heights available. The leg version must be specified.

### Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and

pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
