

[flamingo]

A little extravagant

... is our [flamingo] and so suitable for everyday use! The model leaves *freedom of choice* and that arrives!

You can choose from four different, filigree armpart shapes - on-the-floor or off-the-floor - this always creates a new impression. Even with the *seating comfort* you have a choice - the soft seating comfort made of a special foam or rather the firm spring core is sensational - all a question of taste!

Two seat comforts

This model is available in different seat comforts. For comfort SOFT cold foam is used in the seat. The seat comfort BASIC is made of a coil spring core incorporated into ergoPUR foam. Please indicate when ordering.

Back heights - tall

The model is available with standard backs as well as tall backs (items with the appendix "H"). Both heights cannot be combined with each other.

Flexible headrest

The head rests with joint can be inserted into the opening between the back body and the back cushions individually at the elements according to the seat grid (except on tall backs).

"Bullnose" look

This model is produced with the beloved "Bullnose" design with an extremely rounded shape at the front seat.

Order information

Seat upholstery structure:

Comfort SOFT stands for an extremely comfortable sitting sensation in which you sink into the seat but still sit supported. Comfort BASIC stands for firm, comfortable sitting. Please specify when ordering.

Flexible headrest according to seat width:

The headrests with joint can be put in between the back cushion and back body of the elements. They are not available for the tall elements.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend a roll mat from model range 10006.

Armpart designs:

The armchairs are available with armpart design SAR/L and SBR/L, only.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. Measures refer to SA armpart.

Seat depth: approx. **54 cm**

Armparts:

off-the-floor:

SA = narrow, width ca. **10 cm**

SC = narrow, with pillow, width ca. **19 cm** breit (overmeasure + ca. 9 cm per armpart), **for surcharge** on-the-floor:

SB = narrow, width ca. **10 cm**

SD = narrow, with pillow, width ca. **19 cm** (overmeasure + ca. 9 cm per armpart), **for surcharge**

The SC and SD armparts are not available for the armchairs M55 and M55H in fact of their extending pillow to the seat. These armchairs are available with armpart design SA and SB, only.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no surcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Thread-implementation:

The model is manufactured in leather and in fabric S37 as well as in connection with contrast thread request generally with a trout-thread. This is a stronger, beautifully woven thread. If you explicitly do not want trout yarn, a standard thread is used.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the back of this model. This can lead to depression of the individual chambers, which is a typical product characteristic.

Model-specific qualities:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. This is not a quality

defect but a model-specific characteristic that guarantees optimum seat comfort.

Order checklist

- Structure and cover
- Armpart design (SC/SD for surcharge)
- Upholstery structure SOFT or BASIC (order information)
- Leg design
- Metal colour for legs
- Flexible plug-in headrest
- Contrasting thread
- Ottomen/panel for ottomen (order information)

Upholstered furniture frame structure

1. **Frame** – metal tube construction, armpart – beech wood structure
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** in SOFT or BASIC (indicate when ordering) - full cold foam or coil spring core incorporated into ergo-PUR-foam with diolen cover
4. **Back suspension** with permanently elastic wave springs
5. **Back upholstery structure** with high quality mix of polyester fibres and foam rods, filled in boxes

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs

metal leg gloss diff. metal col.

F 93

metal leg gloss diff. metal col. **G 55 ottoman, only**

F 93

matt metal leg

F 27

metal leg gloss

F 44

Legs for the different armparts:

The metal leg F 93 is for the off-the-floor armparts SAR/L and SCR/L. The ottoman G 55 is equipped with the matching short and round look of F 93 then. The metal leg F 27 is for the on-the-floor armparts SBR/L. The metal leg F 44 is for the on-the-floor armparts SDR/L.

Metal colours:

The metal leg F 93 is available in different metal colours. Please indicate the colour when ordering. The metal legs F 27 and F 44 are not available in different metal colours as standard. If you want a different metal colour for these legs, this can only be made to special order.

Powder-coated:

The colours M21 silver, M56 bronze and M99 black are powder-coated.

Metal leg F 93 in conjunction with armpart shape SC:

In conjunction with armpart SC, an "inclined" leg is attached to the rear of the armpart.

Legs and floor protection:

In the case of very slender furniture legs in deliberately filigree shapes and with small surfaces it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches

and pressure points in connection with sensitive and/or soft floors. Even if you hardly slip the furniture it can be helpful have a carpeted floor.
