

[brooklyn]

If you like transparency, here it is!

[brooklyn] will convince you of its clear shape, *chassis clearance* and an elegant seat depth adjustment.

The perfect solution for modern *interior concepts*.

Even the extra wide one arm chaise provides *airness and balance*.

Flexible seat depth

Every item with the term "L" and "X" has a movable back support for a few centimeters backwards to extend the seat depth. The total depth changes.

**Flexible armparts**

The armparts are foldable and fitted with notch function for a surcharge. Item no. = SV1, SV2.

**Flexible plug-in headrest**

The headrest U 92 with joint can be inserted into the opening between the back body and the back cushions individually.

**Contrasting thread**

In some leather colours this model can be supplied with a contrasting-coloured thread, at no surcharge.

**Order information****Flexible armparts:**

In the case of flexible armparts with continuously variable metal part, a max. weight-bearing capacity of up to 25 kg is guaranteed. They are not to be used for sitting on.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for end elements in the type guide.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no surcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend a roll mat from model range 10006.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions

are given as follows: width/depth.

Seat depth at articles without seat depth adjustment: approx. **60 cm**

Seat depth at articles with seat depth adjustment:

Back at the front: ca. **57 cm**

Back at the back: ca. **84 cm**

Total depth, if back is at the front: ca. **95 cm**

Total depth, if back is at the back: ca. **115 cm**

Recommended space to the wall: ca. **20 cm**

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Standard deep and extra deep elements:

Elements with standard depth are shown light grey coloured, extra deep elements dark grey coloured.

Base leg Z:

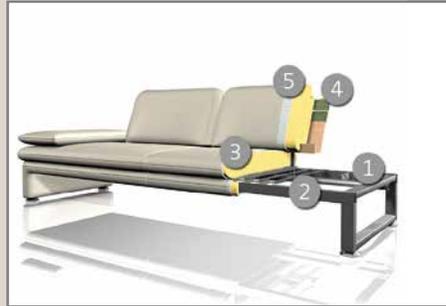

If elements and sofas with or without an armpart are to be attached directly to elements or sofas with or without an armpart, a base leg Z is required. The base leg must be ordered separately. See price list.

Order checklist

- Structure and cover
- Flexible armparts (surcharge)
- Flexible plug-in headrest
- Leg design
- Ottomen/panel for ottomen (order information)
- Positioning diagram
- Pillows
- Contrasting thread
- base leg Z

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

- Controlled Quality
- Guaranteed Safety
- Healthy Living

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
