Attachments

Various attachments with non-slip matting on their base let you design your furniture individually.

Create a corner or a one arm chaise with the back cushion attachment called EK. Or with the cozy attachment PW.

**Metal colours for legs**

The metal leg F S1 is available in the versions high-gloss chrome, silver, bronze or black. Please indicate your preferred appearance when ordering.

**Always new**

Individual elements can be firmly connected to each other using the included connecting rails. This can be applicable on different sides. So you can simply "conjure up" new furniture variations every now and then.

**Contrasting thread**

In some leather and fabric colours this model can be supplied with a contrasting-coloured thread, at no surcharge.

**Order information****Attachments:**

The attachments have non-slip matting on their base, which allows individual design. Staining of the leather and detachment of the natural material will not occur with everyday use. The furniture fabric will not become pilled or discoloured. This has been tested at a revolution rate of 30,000 abrasion cycles.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread on request at no extra charge. You will find the specified colours on the cover sheet of the individual leather qualities in our fabric/leather trolley. Please always state the contrast thread number, otherwise it will be delivered tone in tone.

Thread implementation:

The model is produced in fabric cover with a flat felled seam. In leather and with contrasting coloured thread it is produced with a special cross-stitched seam as standard.

Please note: a cross-stitched special seam is not available with fabric cover!

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.

Seat depth: ca. **57 cm**

Model-specific qualities:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. This is not a quality

defect but a model-specific characteristic that guarantees optimum seat comfort.

Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

Connection bundle:

The connection bundle consists of two metal rails. It allows the elements N 148, N 185 and N 222 to be firmly connected together in an assembly. For this purpose, each element has screws on the required connecting sides. The metal rails supplied can then be attached individually. Depending on the order, you will receive different numbers of connectors, the quantity of which is determined by the manufacturer.

Combined covers:

The chair can also be supplied in a combination of different cover qualities. This is shown at the price list.

Price 1: Body/seat parts

Price 2: Back attachments

Order checklist

- Structure and cover (order information)
- Metal colour for legs
- Ottomans
- Pillows
- Attachments
- Contrasting thread

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs

Metal colours:

Some of the metal legs are available in different metal colours. Please indicate the colour when ordering.

Powder-coated:

The colours M21 silver, M56 bronze and M99 black are powder-coated.

Legs and floor protection:

In case of very slender furniture legs with deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
