

[zoey]

Convinced by generosity.

*About the hinged back part the anyway already **COM-
fortable** sofa in no time still gains some centimeters for
good. The gigantic ottoman can be used as a table or it
transforms your sofa into a giant **scenery**.*

*This model is also available in combination
of different cover qualities and colours.*

Flexible seat depth by back flap

The backs (and the armpart of K110R/L) of some

elements can be folded quite easily upwards against upcharge. Move the back cushions backwards to reach an approx. 22 cm larger seat depth. Except EG80R/L. Item no. = RV1, RV2.

Combined covers

This model can also be supplied in combined covers and combined cover colours. See order information and image.

**Contrasting thread**

In some leather colours this model can be supplied with a contrasting-coloured thread, at no upcharge.

**Noble runner**

A beautiful metal runner (item no. MK1...) is available for upcharge.

**Base**

The base wonderfully integrates into the furniture design. It is covered with the chosen leather or fabric.

**Order information****Combined covers:**

This model can also be supplied in a combination of different cover qualities. This is shown at the image and at the price list.

Price 1: base and seat

Price 2: back cushion

Assigned back cushions:

With this model back cushions are assigned to every article according to the seat grid. In addition, the original back cushions are also orderable separately. Small cushions are not included with the order of the articles. These must be ordered always separately when required.

Loose cushions:

There are loose back cushions with this model.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

Connecting sides:

For an upcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.

The measures refer to the flapped down back function.**Loose back cushions:**

Due to loose back cushions measures may vary. Measures were taken with oriented back cushions. Particularly the total height may vary largely.

Seat depth: ca. **56 cm**

Seat depth with function and back cushion: ca. **78 cm**

Seat depth with function and without back cushion: ca. **97 cm**

Armpart width: ca. **27 cm**

Armpart height: ca. **48 cm**

Depth if back function is folded up: ca. **116 cm**

Recommended space to the wall: ca. **20 cm**

Measurements of the corner combinations:

With this model the seat of the one arm chaises and corner sofas with ottoman the seat rises approx. 4 to 5 cm into the connecting side. Therefore other total measures occur than by pure addition of the article measurements. Please note.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend a roll mat from model range 10006.

Especially loose-fitting upholstery:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific

characteristic.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and in the back cushions. This can lead to depression of the individual chambers, which is a typical product characteristic.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no upcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Order checklist

- Structure and cover
- Leg design
- Metal runner (upcharge)
- Flexible backs (upcharge)
- Positioning diagram

- Contrasting thread

Upholstered furniture frame structure

1. **Frame** – metal construction; back: beech wood construction
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** – spring core with diolen cover incorporated into ergo-PUR-foam, polyester fibres and foam rods
4. **Back suspension** with ergo-PUR foam and diolen cover
5. **Back upholstery structure** with high quality mix of polyester fibres and foam rods, filled in boxes; loose back cushions

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has over 65 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

In-house manufacture conforming to the specs of the quality management system in line with ISO 9001, to safeguard int. processes. Last update 06/2018.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Climate pact with the DGM from sense of responsibility compared with the environment and climate goals of the Federal Government as well as the UN. Base is the CO2 balance of an enterprise.

FC3

metal runner flat steel high-gloss chrome **upcharge**

FR6

Runner:

The articles can be equipped with a runner for upcharge. Then the item no. is MK1, MK2, MK3.

Legs and floor protection:

In the case of very slender furniture legs in deliberately filigree shapes and with small surfaces it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you hardly slip the furniture it can be helpful have a carpeted floor.
