

[riccardoo]

Elegance and functionality.

*The already **comfortable** sofa gains a few more feel-good centimetres in an instant via the motorised seat extension. The smart look is supported by a **pipng** on the seat and on the armparts.*

Extendible lying surface

Some articles can be equipped with a motorised seat extension for surcharge.

The overall depth extends. Item no. = A02. When the seat extension is actuated, the arm part also moves forward.

**Nice extras**

The model has a piping. In the leather implementation, it is made of the same cover material as the sofa combination. In the fabric version, the piping is always made of imitation leather in the colour black K10/99.

**Noble runner**

A beautiful metal runner (item no. MK1, MK2, MK3) in black powder-coated can be ordered for surcharge.

**Detail underframe**

The underframe of this model is upholstered in black imitation leather as standard.

**Detail metal bracket at the back**

The back metal bracket on this model is powder-coated in black as standard.

**Order information****Extendible lying surface:**

The sensor touch button for the seat extension by motor is located in the middle under the back cushion.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Piping:

This model is delivered with a piping. In the leather implementation it is made of the same cover material than the sofa combination. In the fabric implementation it is made of imitation leather in the colour black K10/99.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.

Seat depth: approx. **54 cm**

Seat depth extended seat function:

ca. **80 cm**

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we

recommend the plexiglass cover L010 or a roll mat from model range 10006.

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Right and left sofas cannot be combined:

Right and left sofas cannot be combined for technical reasons in this model. Also a special production is not available here.

Order checklist

- Structure and cover
- Metal runner (surcharge)
- Leg design
- Motorised seat extension (surcharge)
- Ottomen/panel for ottomen (order information)

Upholstered furniture frame structure

1. **Frame** – Beech wood structure
2. **Seat suspension** – none
3. **Seat upholstery structure** of ergo-PUR-foam with diolen cover
4. **Back suspension** with upholstery strap
5. **Back upholstery structure** of ergoPUR-foam with diolen cover

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs

metal leg black

F C3

metal runner black
surcharge

F 16

Legs and floor protection:

In the case of very slender furniture legs in deliberately filigree shapes and with small surfaces it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you hardly slip the furniture it can be helpful have a carpeted floor.

Powder-coated:

The colour M99 black is powder-coated.
