

## [aureelia]

A sofa you don't want to leave anymore.

This model has all the good features! The **seat depth** can be extended via the clever backrest adjustment. An oak base provides a cosy warm **contrast**. Optionally, the armparts can be adjusted and the elegant metal runner can be ordered in various metal shades.

Cover: Z78/50 latte macchiato

one arm chaise with option  
for armpart ATL

123/170/71/42

**Back adjustment**

Every item is equipped with back adjustment as standard. The back can be flapped upwards, the seat depth changes.

**Flexible armparts**

The armparts are foldable and fitted with notch function for a surcharge. Item no. = SV1.

**Metal colours for runner**

The noble runner is available in metal colours high-gloss chrome, silver, bronze or black. Please indicate when ordering.

**Base**

The oak base is wonderfully integrating into the models' shape. It is available in veneered and lacquered oak natural.

## Order information

**Flexible armparts:**

A maximum load-bearing capacity up to 25 kg is guaranteed for the functional armrests. They are not suitable for sitting on.

**Back sides of sofas:**

All pieces are genuinely upholstered at the back.

**Positioning diagram:**

Please send us a positioning diagram, depending on the amount of different variations available. We have marked the connecting sides in red for end elements in the type guide.

**Connecting sides:**

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

**Seam appearance:**

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

**All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The measures depend on armparts without function for surcharge. If the armpart is at a horizontal line, please note that the width measurement enlarges by about 3 cm per armpart.**

Seat depth with back adjustment down: approx. **52 cm**

Seat depth with back adjustment up: approx. **62 cm**

Height with function: approx. **101 cm**

**Model-specific qualities:**

The upholstery of this model has intentionally been made

loosely to create a certain visual effect. This is not a quality defect but a model-specific characteristic that guarantees optimum seat comfort.

**Chromatic aberrations:**

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

**Base leg Z:**

If elements and sofas with or without an armpart are to be attached directly to elements or sofas with or without an armpart, a base leg Z is required. The base leg must be ordered separately. See price list.

**Ordering the side parts:**

**The side parts on the right/left, if desired, must be specified when ordering, otherwise you will receive your item without side parts! Please note!**

## Order checklist

- Structure and cover
- Metal colour for legs
- Flexible armparts (surcharge)
- Positioning diagram
- Lumbar pillows
- Base leg Z

### Upholstered furniture frame structure

1. **Frame**– wood base underframe; back/armparts: beech wood structure; seat: metal construction

### Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
