Accessories

Flexible headrest

The head rest U 92 with joint can be inserted into the opening between the back body and the back cushions individually. Except ME armchair.

**Armchair**

The armchair is an element of the model range. The frame structure of ME ist different than the structure of the other elements (see order information). Therefore it has another look and seat firmness.

**Ottoman with storage space**

An ottoman has a fold-out function with integrated storage space. Functional ottomen do not have a spring core in the seat. All ottomen are available with castors for surcharge. See type guide for item no.

Castors for ottomen

The ottomen can be equipped with castors for surcharge. Two of the castors can be fixed. Thus a comfortable, big couch surface arises.

**Order information****Back sides of sofas:**

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for some elements in the type guide.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no surcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend the plexi glass cover L010 or a roll mat fom model range 10006.

All of the dimensions given are approximate. dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height and refer to the leg height ca. 15 cm.

Seat depth: ca. 51 cm

Seat height: ca. 42 cm/44 cm

Seat height armchair: ca. 40 cm/42 cm

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

Individual armchair ME:

The ME individual armchair has another frame structure than the model range. Therefore it has also another seath softness.

Frame: Frame: beech-wood structure
seat suspension: permanently elastic wave springs
seat upholstery structure: coil spring core incorporated into ergo-PUR-foam with diolen cover
back suspension: flexible upholstery straps
back upholstery structure: ergo-PUR foam with diolen cover

Base leg Z:

If elements and sofas with or without an armpart are to be attached directly to elements or sofas with or without an armpart, a base leg Z is required. The base leg must be ordered separately. See price list.

Order checklist

- Structure and cover (order information)
- Leg design/-height
- Leg colour with wooden/metal legs
- Ottomen/panel for ottomen (order information)
- Castors for ottomen (surcharge)
- Positioning diagram
- Contrasting thread
- Pillows
- Flexible plug-in headrest
- base leg Z

Upholstered furniture frame structure

1. **Frame** – Beech wood structure
2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** – spring core with diolen cover incorporated into ergoPUR-foam
4. **Back suspension** with upholstery strap
5. **Back upholstery structure** of ergoPUR-foam with diolen cover

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Leg and seat heights:

Due to different leg heights, the model is available in different seat and total heights. The leg design has to be indicated.

Castors for ottoman:

Every ottoman can be equipped with castors for a surcharge. The item number is marked with an "R" (e.g. G...R). Two of the castors can be fixed. Please note that the castors are available in two different heights.

Leg colours:

The legs including wood are available in a choice of different stain shades. We are happy to advise you.

Legs for armchair:

The ME individual armchair is available with the legs F 00/F 85, only. The armchair has another seat height than the other elements.
