

## [norway:jooris]

Offers flexibility and functionality at the same time.

This armchair is a **highlight** in each room due to its tufting in the back and its cubic look. At first sight you will not notice something special – but once you sit down you will discover the **integrated** turn around and swinging functions which gives you a perfect comfort feeling. Choose from different armpart designs and seat heights.

#### Different armparts

This model is available in different armpart designs. See order information.

#### Turn-tilt function

The MDW armchair is equipped with a turn-tilt function. The function can be fixed in every position with the side lever.

#### Flexible headrest

The items are equipped with a flexible headrest with notch function as standard.

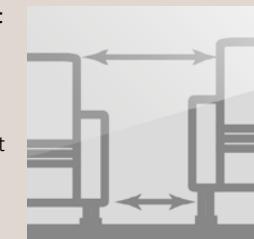

#### Metal colours for legs

The 5-star base F 99 can be ordered in polished chrome, silver, bronze or black. Please indicate the desired look when placing your order.

#### Leg and seat heights

The model is available in different seat and back heights according to the three different leg heights. The leg design has to be indicated.

## Order information

### Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

### Armpart implementations:

SA - cubic, width approx. 11 cm  
SB - angled, width approx. 13 cm (overmeasure + ca. 2 cm)

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.

The measures refer to the armpart SA. The dimensions are taken from the lowest seat height. The leg F 1D is wider than the chair (depending on the position). The lever at the side of the chair (for releasing the function) is about 4.5 cm wider than the chair (using armpart SA).

Seat height: approx. 43 cm/45 cm/47 cm

The ottoman has a seat height of approx. 42 cm / 45 cm and a slight incline in the seat. The heights of the seat edges are approx. 42 cm / 38 cm and 45 cm / 41 cm.

### Seat depth/seat depth with function:

M SDW: approx. 44 cm / 52 cm

M MDW: approx. 45 cm/approx. 52 cm

M LDW: approx. 46 cm / approx. 52 cm

Total depth with function:

M SDW: approx. 109 cm

M MDW: approx. 115 cm

M LDW: approx. 121 cm

Total height: approx. 104 cm / approx. 108 cm / approx. 112 cm

### Especially loose-fitting upholstery:

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

### Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

### Load-bearing capacity:

A maximum load-bearing capacity of this armchair up to 120 kg is guaranteed.

## Order checklist

- Cover
- Armpart design
- Leg design/-height
- Metal colour for legs
- Seat height approx. 43/45/47 cm
- Pillows
- Ottomans (two heights only)

## Upholstered furniture frame structure

- 1. Frame** – metal tube construction, foamed, armpart – shaped wood structure
- 2. Seat suspension** by foamed seat straps
- 3. Seat upholstery structure** of cold foam and high quality mix of polyester fibres and foam rods, filled in boxes
- 4. Back suspension** with permanently elastic wave springs, covered with foam
- 5. Back upholstery structure** with high quality mix of polyester fibres and foam rods, filled in boxes

## Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

## Legs

4-spoke leg,  
**surcharge** satin  
nickel

F 99

F 1D

### Legs for ottomans:

The leg implementations for the ottomans are smaller than the legs for the armchair legs. The ottomans are available in two heights, only.

### Leg designs in 3 heights:

The legs are available in three heights, therefore the 3 possible seat heights result:

seat height 1 - ca. **43 cm**

seat height 2 - ca. **45 cm**

seat height 3 - ca. **47 cm**

Following leg designs are available:

**F 99** - 5-spoke leg, available in different metal colours (item no. **SX** - for armchair; item no. **HX** - for ottoman)

**F 1D** - 4-spoke-leg, nickel-satinated, **for surcharge** (item no. **SF** - for armchair; item no. **HF** - for ottoman).

**Please note! The ottomans are fixed and not swivelling!**
