

[embrace]

Extraordinary.

Not only in terms of **shape** is [embrace] special. Also in terms of seating comfort a clear **feel-good factor**.

The high and wide back section lets everyone sink into its easy swing and gives its "owner" a light hug. [embrace] is the optimal companion into the relaxed evening!

Turn-tilt function

The MDW armchair is equipped with a turn-tilt function. The function can be fixed in every position with the side lever.

Flexible headrest

The items are equipped with a flexible headrest with notch function as standard.

Cold foam seating comfort

The cold foam seating comfort is characterised by the padding of a highly elastic foam of first-class point elasticity and stands for the support of a healthy spinal column position when sitting.

Order information

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. Depending on the position of the chair, the 4-star base F 1D stands sideways over the body. Please note. The lateral release lever for the rocker/turn function protrudes slightly beyond the body.

Seat depth: ca. 51 cm

Total depth with function: ca. 114 cm

Especially loose-fitting upholstery:

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

Load-bearing capacity:

A maximum load-bearing capacity of this armchair up to 120 kg is guaranteed.

Order checklist

- Cover
- Leg design
- Metal colour for legs
- Ottomans

Upholstered furniture frame structure

- 1. Frame** – metal tube construction, foamed, armpart – shaped wood structure
- 2. Seat suspension** by foamed seat straps
- 3. Seat upholstery structure** of cold foam, ergoPUR foam and diolen cover
- 4. Back suspension** with permanently elastic wave springs, covered with foam
- 5. Back upholstery structure** of cold foam and ergoPUR foam with diolen cover

Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
