

[salsaa]

Unit of shape and function.

*This chair is a **highlight** in each room due to its quilted back. At first sight you will not notice something special – but once you sit down you will discover the **back and armpart function** which gives you a perfect comfort feeling as an option. The noble swivel base is available in different metal colours.*

no. back armpart function
comb. = RSF (surcharge)

Accessories

U90
bolster

41/7/27/0

Flexible headrest

Every article is equipped with stageless headrest adjustment for standard.

**Seat- /back heights**

The elements with the appendix "MM" and "ML" have taller seat and back heights caused by a taller leg.

Combined back- / arm part function

For surcharge the articles can be equipped with the combined back-/arm part adjustment. See order information.

**Seat- /back adjustment**

The articles have a manual seat- /back adjustment for standard. For surcharge the function is available with motor. See order information.

Lean back comfortably

The comfortable bolster can simply be hung over the head part of the back support.

**Order information****Seat and back adjustment:**

The back support bends to the back, at the same time the seat glides to the back and lowers. The legrest is coming up. All together the angle between the backrest and the seat remains unchanged.

By hand with vapour pressure:

By pulling the chrome lever at the side you can lower the backrest stagelessly with your body weight without changing the seat or the legrest. You can fix your preferred seating position.

Adjustment by motor (surcharge):

For surcharge the seat- /back adjustment can also be ordered with double motor (item no. = F40) or with double motor with battery pack (item no. = F70).

Adjustment by motor with battery pack:

Please pay attention that with using the adjustment by double motor with battery pack the battery has to be charged completely every 4 to 6 weeks, also if the function wasn't used regularly.

Combined back-/arm part function:

For surcharge the arm parts are gliding backwards at the same time with the back lowering (item no. = RSF). The function is available with the seat-/back adjustment with double motor (item no. F40) or double motor with battery pack (item no. F70), only.

Rotary limitation:

The armchairs with stream supply by net cable are defeated by a rotary limitation to maximum 355° what serves for the protection of the net cable.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons,

seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height.

Seat depth: ca. **50 cm**

Total depth with function:

MS: ca. **162 cm**

MM: ca. **166 cm**

ML: ca. **167 cm**

Model-specific qualities:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. This is not a quality defect but a model-specific characteristic that guarantees optimum seat comfort.

Order checklist

- Cover
- Leg design
- Metal colour for legs
- Wooden leg colour
- Seat- /back adjustment manually/by motor (surcharge)
- Combined back- /arm part function (surcharge)
- Pillows

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

- Controlled Quality
- Guaranteed Safety
- Healthy Living

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
