

## [gunnar]

Modern eating culture.

This nice table has a robust, oiled wooden tree board. The steel underframe is available in different *colours*. We've consciously chosen a contrast between the rustic *sur-*  
*face* and the filigree, modern underframe.

surcharge

**Noble solid wood**

The wooden board is of oiled solid wood in wild oak implementation. A

lot of value was placed on a "wild look" - depth structures, open knotholes and shrinkage cracks are desired and clearly visible. Every table is unique!

**STEEL table underframe**

The table underframe is made of steel. It's available in different metal colours.

**Noble wooden tree board**

The table is made of wooden tree. The strong character with

indentations in the surface is consciously wanted and of the finest quality.

**Order information**

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height.

Wooden top thickness: ca. 4,2 cm

Headroom: ca. 71,5 cm

**Chromatic aberrations:**

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best correspondence possible.

**Implementation of the tabletops:**

Wood is a natural material, therefore sometimes more or less branches can seem in the tabletops. This is a typical quality sign for products and is no reason for complaint.

**Shrinkage cracks:**

There may be natural cracks and notches in the wood. These have no influence on the stability of the piece of furniture. Shrinkage cracks are not subsequently filled, as the filling material could flake off.

**Open knotholes:**

The table tops may have knotholes which vary in number, shape and size.

**Depth structures:**

Varying wood properties in the machining process result in different structures, which can deviate in depth.

**Order checklist**

- Metal colour for frame STEEL

## Frame Structure

**Base frame** - metal construction

**Table board** - of natural oak wood

## Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.
