\star - low, $\star \star \star$ - very	y good		
Product width: ca. 140 cm			
Abrasion cycles:	as per RAL430/4 for working on upholstered furniture.		

Care & cleaning

For cleaning and care of your upholstered furniture please always use the high quality **Longlife fabric / PURATEX® Care kit** only, which was especially developed for this fabric. At the same time, LCK offers the opportunity to register for a **5 year service warranty**. This warranty comprises professional advice by phone, carriage-free delivery of special products for free (stain-remover) as well as a one time cleaning service free of charge for the dirty spot by an expert at your home. Please see **www.schillig-moebelpflege.de** for further information.

Characteristics typical of the product:

- With light colours, colour migration can occur in combination with dark or intensive colour shades.
- Lightening can occur in areas that are used regularly.
- Patina and shiny areas can be expected during use.
- Dark and intensive colours have a tendency towards wet abrasion.
- Seat mirror formation is unavoidable.
- Caution: If the material is of a light colour, soiling and jeans rubbing will show up faster and more clearly than on dark colours.
- Pilling is unavoidable and can be caused by the adherence of clothing and other textile fibres.
- In case of direct sunlight on dark and intensive cover colours, colour changes may occur. This is not a reason for complaint, but a typical characteristic of the product.

Caution:

Discolouration caused by textiles are excluded from every manufacturer warranty. This is not a fault in the material, but a defect in the clothing material. The complaint should be addressed to the clothing store where the article was purchased. The "polluter pays" is the principle that applies here. Please pass this information on to your customer.
